

Access Financial at Redstone

Corporate Headquarters

Architect: Terry-DeRees Associates

Duration: 3 Months

Access Financial's corporate headquarters occupies the 4th and 5th floors of Redstone, a Class A suburban office building in Kenwood. The board room has vaulted ceilings and overlooks the building's pocket park. Executive offices have spacious balconies offering a view of the Kenwood area. An access control system provides heightened security for employees. Radius walls add interest to the 60,000 SF space, and all of the smaller conference rooms are named after U.S. Presidents hailing from Ohio.

"Our experience with Oswald was far superior to other companies we've worked with previously. Their staff is highly professional and is devoted to first-class customer service."

-David Mitchell, Vice President, Corporate Facilities
