

# Cornerstone Corporate Headquarters Building

Architect: KZF Design  
Duration: 8 Months

Located just outside downtown Cincinnati along the I-71 corridor, the Cornerstone building was designed to maximize space on a triangular urban site, which has 60 parking spaces and an ornamental wrought iron fence. The 20,000 SF brick office building features a 75 seat media center theater, twin grand staircases, and a board room with floor-to-ceiling windows offering a view of the Cincinnati skyline.
