

Kroger Marketplace

Ohio & Kentucky Locations

Architect: CR architecture + design
Duration: 8 Months

Kroger Marketplace stores feature housewares, decor and furniture, as well as expanded food selections. Stores range in size from 100,000 to 130,000 SF. Colorful and inviting retail displays add visual interest, and multiple skylights let in natural light. A second floor administration area overlooks the entire store; exterior windows allow personnel to view the outside as well. To date, Oswald Company has built four Marketplace stores, and has completed 16 other Kroger stores over the last decade.
