

# Mariemont Community Church

## Chapel & Parish Center

Architect: Phillip Markwood Architects  
Duration: 12 Months

Oswald Company has extensively renovated these two historic landmarks. Improvements included reconfiguring the parish center auditorium into a contemporary worship space, replacement of HVAC, plumbing, and electrical systems, new windows and doors, a new and improved preschool, and the removal of asbestos. As both the Chapel and Parish Center are used by various groups outside the church, Oswald updated them for the maximum benefit of both the community and congregation.

**"Everyone I have worked with at Oswald has been extremely competent and always responsive. It may not be possible that you care about this project as much as I do, but it seems like you do. I have never had one second thought about choosing to work with you. Oswald Company is a great blessing to Mariemont Church."**
