

Park West L-2

New Construction

Architect: Clarisey Frank Architecture
Duration: 5 Months

Industrial Developments International partnered with Oswald Company to construct building L-2 at Park West International in Hebron, Kentucky. This is the 13th building Oswald Company built in this industrial park, and the 32nd project completed with IDI. The 150,000 SF tilt-up concrete building has 10 loading docks and a membrane roof. Oswald performed the site development on this project and finished the building ahead of schedule.
