

# Walgreens

Ohio, Indiana, Kentucky

Architect: CR architecture + design  
Duration: +/- 5 Months

Oswald Company has enjoyed a decade-long partnership with Anchor Properties as part of the Walgreens Expansion Program. The average store size is 16,500 SF. While the store prototype has changed over the years, Oswald Company's achievement of cost, schedule and quality goals has remained consistent. To date, Oswald has completed 30 Walgreens stores, including 44 Take Care Clinic renovations, which are small health clinics retrofitted into existing Walgreens.

**“Our challenge was to construct the stores to exceed the expectations of the Owner and to provide [Walgreens] with a quality store. We have been able to achieve a close working relationship with both Anchor and Walgreens, which has enabled us to be a repeat builder for them.”**

-Matt Tepe, Oswald Project Manager
