**TOPPING OUT AT NEW UROLOGY CENTER**

CINCINNATI, OHIO – September 22, 2011 – The Urology Group (TUG) and the Oswald Company held a “topping out” ceremony at the site of TUG’s new state-of-the-art facility in Norwood.

A topping out ceremony is held to commemorate the last beam being placed at the top of a new building. TUG Doctors, members of the project team, and local officials participated in the event, autographing the beam before watching it be hoisted to the top of the building. The American flag was secured to the beam for display along with a fir tree. Dating back to a tradition brought to America by early European craftsmen, the tree is thought to symbolize a blessing on the structure and prosperity for those who occupy it.

The new facility, slated for completion in May 2012, will house an ambulatory surgery center with seven operating rooms; multiple imaging units including Intensity Modulated Radiation Therapy (IMRT); and lab, research, clinic and administrative space.

The Urology Group is the second largest single specialty group of urologists in the Midwest, and has several locations throughout Greater Cincinnati. To learn more about this project, go to: <http://www.oswaldco.com/portfolio-details.aspx?project=194>.
